

## GOVERNOR (1933-1941 : BLOOD) [446]

### EMPLOYMENT APPLICATION CORRESPONDENCE, 1932-1940.

4 cu. ft. and 5 microfilm reels

**DESCRIPTION:** This series contains correspondence from Utah citizens inquiring about state and federal governmental positions. It contains vitae, letters asking for appointment and letters of recommendation. The series does not contain literal employment applications.

Letters contain past employment information, education, religious involvement and the pursued position. Some of the letters pleadingly ask for employment of any kind to relieve the destitution of the author and family. Typically there is a response from Governor Blood for each letter.

**ARRANGEMENT:** The series is arranged by type of application: state, federal, or other; in conjunction with year grouping. The first year grouping includes applications from December of 1932 paired with 1933; thereafter all following years are grouped together i.e., 1934-40. State applications are further arranged alphabetically by agency; thereunder chronologically by individual date. Federal applications follow state applications, and miscellaneous applications appear last within the year groupings.

**RELATED RECORDS:** Series 186, CORRESPONDENCE, contains letters from Utah citizens seeking employment and asking for recommendation from the Governor. Series 14207, STATE AGENCY CORRESPONDENCE, also contains information pertaining to acquiring employment within state agencies.

**PROCESSING NOTE:** These records were microfilmed in 2002 to preserve the historically valuable original documents. Henry H. Blood was the governor during the Depression, a very

trying time in United State history. The series documents the struggles endured and the rampant unemployment during this time. This series was processed by Wendy Checketts, April 2000.

**PREFERRED CITATION:** Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.
